Vision:

To provide affordable people centric care of international standards fastered by "Innovation, Excellence & Education."

Continental Hospital is committed to the benefit of humanity through dependable & trusted patient care by engaging continuously in education and research. Medical staff is always committed to embrace and patience.

Mission:

To provide best quality care to every patient with compassion and promoting clinical practices in partnership with our medical staff and employees.

Continental Hospitals is dedicated to serving its patients with dignity, compassion and excellence in caring for the whole person-mind, body and spirit. Fostering integration in service delivery will uphold "Patient First".

Chairman's Message

Continental Hospitals is founded and established with a vision to encompass both a **focus on healing and a commitment to well-being of a patient.**

Delivering an exceptional **patient experience** is both a clinical and a business imperative in today's healthcare environment. And to do it consistently is not easy. It requires leadership diligence, engaged employees and physicians, standard practices, and a strong culture committed to always placing the patient and family at the center of the conversation.

I am proud to say after decades of my physician leadership and clinical work in the United States, I have deeply understood the essential components of a successful and sustainable patient experience. Today's patients and their families expect not only safe, high-quality medical treatment but also courtesy, short wait times, and amenities as well as comfortable waiting lobbies, clean and environmentally friendly patient care areas.

At Continental Hospitals we strive every day to instill a patient-first culture wherein all employees understand their unique role in creating a positive patient experience. Staff at every level are dedicated, mindful, passionate about the impact they make towards patients' healing.

We encourage ourselves to ask, "If it were my mother, sister, brother or child in that hospital bed, would I do anything differently?", and that philosophy drives our staff to take that extra step in every patient interaction, at every hour of the day. **We will not cease to elevate this experience and continue to distinguish ourselves in our communities at large.**

Dr. Guru N Reddy

MD, FACP, FACG, FASGE, AGAF
Founder & Chairman
Continental Hospitals

Delivering evidence-based, compassionate, and patient-centric care remains our most fundamental objective for us at Continental Hospitals.

The Values that Drive Us:

- **Quality** : International standard quality parameters for superior patient-care.
- **Integrity** : Transparency and ethics remain at the core of all our operations & processes.
- **Excellence** : An environment of excellence, driven by a pioneering spirit & quest for innovation.
- **Teamwork** : Collaborative care fostered by a holistic and decisive treatment for acute & chronic care.

Our Facilities:

Hospitals are required globally to embrace and design infrastructure that provides uncompromising patient care. Continental Hospitals stands tall and proud in fulfilling and embracing national & international guidelines, with extraordinary aesthetic ambience, safe design, beautifully appointed patient rooms across all categories. For comprehensive & world-class patient care we have spacious diagnostic facilities, technologically enabled intensive care units, 24/7 adult & pediatric emergency center.

Natural, unfiltered sunlight into our OPDs, In-Patient Rooms & ICUs aids quicker recovery and improves overall patient-experiences at Continental Hospitals.

We Collaborate To:

- Place Patients'-Interest First
- Protect Patient Safety & Dignity
- Provide Multi-disciplinary Care
- Prioritize a Culture of Empathy
